## GENERAL PROVISIONS

1. Port charges, other fees and any amendments thereto levied by AS Saarte Liinid (hereinafter referred to as the 'port authority'), are established by AS Saarte Liinid. Changes to the charges will be announced to all parties operating in the port via the company's website at [www.saarteliinid.ee](http://www.saarteliinid.ee) or by other means.
2. The charges set out in this price list are collected either by the port operator or by the service provider specified in the price list.
3. VAT is added to the charges in accordance with applicable legislation.
4. The payment deadline for port charges levied by the port operator is generally 7 calendar days from the date of invoice. If a different deadline is agreed upon in a contract or other document with the recipient of the invoice, the agreed-upon deadline applies. The port operator is entitled to charge a penalty of 0.15% per day on the overdue amount for each day of delayed payment.
5. In the case of extraordinary cargo shipments, the port dues shall be calculated on the basis of special estimates, considering the measurements of the cargo, its load on port facilities, hazards to the port and additional expenditures.
6. The port operator reserves the right to change the amount of charges specified in the price list. In general, charges are adjusted once a year, on 1 January.
7. For contracts and written agreements lasting longer than one year, charges are generally adjusted based on the Consumer Price Index (CPI), unless otherwise agreed.
8. The calculation of charges set out in this price list is based on the port rules and the ability to provide the service.
9. Disputes arising from this document that cannot be resolved by agreement will be settled under the legislation of the Republic of Estonia at the Kuressaare Courthouse of the Pärnu County Court.

## PART I. PORT CHARGES FOR VESSELS

### 1. FERRIES AND LINERS

For the carriers, selected by the state as a result of the public procurement, serving regular public ferry lines between mainland Estonia and the islands, and between the islands, the valid port service prices are determined by AS Saarte Liinid on the basis of the tender prepared for the public procurement, and this may differ from the prices provided in this price list. In order to submit a tender for participating in public procurement for ferry lines, the carrier must contact AS Saarte Liinid and provide all the information necessary to service the vessel used on the regular line.

**AS Saarte Liinid signs a contract for the provision of port services with the carrier declared as successful in the public procurement based on the tender.**

The contract for the provision of port services concluded with the carrier specifies:

- Basic port charges or port dues for liners listed in a separate agreement
- Passenger charge
- Waste charge
- Charge for loading/unloading cargo
- Conditions for the reception of bilge water, wastewater and garbage.

**Unless otherwise stipulated in the contract, the carrier pays for power supply, water and other port services according to the actual consumption of the period based on the price list.**
