PART I. PORT CHARGES FOR VESSELS

1. FERRIES AND LINERS

For the carriers, selected by the Ministry of Economic Affairs and Communications of the Republic of Estonia as a result of the public procurement, serving regular public ferry lines between mainland Estonia and the islands, and between the islands, the valid port service prices are determined by AS Saarte Liinid on the basis of the tender prepared for the public procurement, and this may differ from the prices provided in this price list. In order to submit a tender for participating in public procurement for ferry lines, the carrier must contact AS Saarte Liinid and provide all the information necessary to service the vessel used on the regular line.

AS Saarte Liinid signs a contract for the provision of port services with the carrier declared as successful in the public procurement based on the tender.

The contract for the provision of port services concluded with the carrier specifies:

- Basic port charges or port dues for liners listed in a separate agreement
- Passenger charge
- Waste charge
- Charge for loading/unloading cargo
- Conditions for the reception of bilge water, wastewater and waste.

Unless otherwise stipulated in the contract, the carrier pays for power supply, water and other port services according to the actual consumption of the period based on the price list.
